STANDARD DESIGN

Standard panels measure 24 x 48", are ¾" plywood with blond oak face finished natural providing a handsome background which effectively displays the tools. Tools are securely mounted with metal clips and wing nuts—easily removed for demonstration and sale. Furnished at cost of tools only.

Crescent Store Displays are a great sales stimulant for your tool department. They not only provide excellent display but are reminder advertising of the highest type. The standard displays illustrated are supplied without any additional stock of tools since replacement tools are readily available through Crescent jobbers.

Our display department will be happy to work with you on problems of color, size and location. Send us full information and a sketch or photograph to illustrate your problem, and we will be glad to work out design suggestions for you.

CRESCENT TOOL COMPANY
Jamestown, New York

CUSTOM DESIGN

Any of these displays can be furnished in special colors and dimensions to match your own store fixtures. Displays will also be made up to provide any combination of tools selected by the dealer. Special displays are also furnished to the dealer at cost of tools only. Chrome moulding, if wanted, furnished at cost.
